## Dr. Zhivago: Indictment or Art?

of the Nobel prize for his novel, Dr. Zhivago, has suddenly and unwillingly become the center of a propaganda campaign in the West.

Hailing it as a grand piece of anti-Communist propaganda, Westerners quote the novel's title character:

'I do not know of any movement which is more self-centered and further removed from the facts than Marxism . . . The government hierarchy, in order to promote the myth of their own infallibility, do everything but turn their backs on truth."

Red Journal Blasts Novel

In contrast to the plaudits of the free world, Moscow Literary Gazette has this to say about the novel, "... The award was made for an artistically squalid, malicious work replete with hatred of socialism.'

Pasternak claims Dr. Zhivago was intended as a nonpolitical commentary on the effects of the Russian Revolution upon the Soviet people. The book has been evaluated by some as a religious novel, in which Zhivago sees what the system has done to the heart of man. The book ends on a note of hope for Russia.

Pasternak Refuses Prize

Max Frankel of the New York Times News Service says, "Pasternak wrote his novel intending it to be a work of art, not an indictment against the Communist system. When he understood what was happening, he voluntarily resused the Nobel prize for literature. To this, the Soviet government replied: 'You are free to collect your \$41,520 prize in the capitalist world, and to stay there if you want."

'Pasternak pleaded not to be expelled from his motherland and added, 'Speaking sincerely, I have done something for Soviet literature and can be useful to it in the future.'

## Founding Fathers Imprint Symbols Of Christianity on American Life

by Rosemary McGuirk

With right hands placed thoughtfully or haphazardly over their hearts, boys and girls of red or white, black or yellow skins, children with Irish, German or Polish ancestors, but American students all, rise at the grating sound of the class bell. Before the red, white and blue flag they recite their allegiance to "one nation under God, indivisible, with liberty and justice for all."

A revision of the pledge of loyalty to the United States which, since its printing in September, 1892, has become an intrenched fixture of American school life, was made in May, 1954.

At that time Congress adopted a unanimous recommendation of judiciary sub-committee of the House of Representatives that the words "under God" be inserted. Representative Louise C. Rabaut of Michigan, the revision spon-sor, expressed the desire that the pledge remind the boys and girls who repeat it each morning that "democratic institutions presuppose a Supreme Being.'

Do the foundations of American democracy proclaim a belief in a Supreme Being? In the beginning, settlers Vol. XXX came to America in order to find freedom to practice their own religious convictions.

Although not all the United States founders acknowledged a formal faith, their views of man had deep religious foundations. Thomas Jefferson's wording of the Declaration of Independence, the doctrine that severed America from the tyrannical governing of England, radiates the Christian concept of man, The Declaration speaks of man's "certain inalienable Rights" that are "endowed by their Creator.'

The confidence of the American founders in the capacity of man to govern his own affairs, hold the ultimate power in the operation of his society and to decide correctly with the necessary information are a tribute to the Christian humanism of the forefathers of the United

### Collection Denotes Sacrifice of Self

What value do you place on statistics? Are they only figures indicating political trends, television ratings and economic curves, or do you consider the attitudes they reflect meaningful?

For example, examine the results of an offertory collection at our own college. On a typical Sunday the collection tallies as follows: 22 seniors contributing \$4.04; 27 juniors, \$5.14; 41 sophomores, \$7.20 and 51 freshmen, \$12.73. Applied mathematics proves that 42 per cent of the seniors, 40 per cent of the juniors, 34 per cent of the sophomores and 34 per cent of the freshmen made donations.

The average contribution per student amounted to 71/24.

Is that amount sufficient to maintain our three campus chapels? The money buys flowers, altar cloths, vases and vestments. The obligation to support our chapels is just as real as the obligation of our parents to support their parish.

But, more important than dollars and cents, the offertory collection signifies our personal sacrifice. We would resent being told that our charity does not stretch to include a monetary sacrifice, yet participation in this offering is less than 40 per cent. Usually the reason behind this negligence is forgetfulness, but this becomes an old story when repeated week after week.

Next Saturday when you receive your envelope read its inscrip tion: "My offering for bread and wine for this Holy Sacrifice of the Mass symbolizes the offering of myself."

### The Labarum for 1957-58 has been awarded All-Catholic Clarke on Nov. 16. The Art Club Perfect Weekend House Guest Shows Tact, Consideration

There comes a time in the life of every college girl when she is invited to a friend's home. Perhaps the event of her visit is an overnight field trip, a long weekend or a holiday vacation. But, whatever the occasion, the fact remains that she has the opportunity to bring joy or despair to at least one American household.

#### How Golden Is Silence

Girls often attend the same college for years before meeting each other's families. A weekend visit provides an excellent opportunity to get acquainted with these people who are so important in a friend's life. Therefore, a guest should not confine all her conversation to one member of the family, but should try to know all of them if it is convenient.

Certainly nothing is more awkward than the tongue-tied silence which sometimes occurs when a visiting girl finds herself alone with a male member of the family. To guard against such a situation she might inquire beforehand about father's occupation and brother's special interest or sport.

#### Live and Let Live

trust of our people in God should be eclared on our national coins 1864 the motto, "In God We Trust," first appeared on U.S. coins.

Thanksgiving Day, Nov. 27 this year, is another evidence of America's Christian bases. The Pilgrim Fathers at Plymouth established a time of thanksgiving for the harvest in 1621 and often repeated it. A day for thanks-giving is associated with numerous American historical events. Congress recommended days of Thanksgiving during the Revolution. President Washington appointed such a day after the adoption of the Constitution in 1789. The Great Emancipator, President Abraham Lincoln, proclaimed Thanksgiving as a national holiday in federal areas, in 1863. Governors of the states also initiated it in their areas. Congress at last assigned the holiday to the last Thursday in November.
